Admin Interface

Manage Cart & Checkout
Users will be able to view and remove items from their cart as well as check out with the items currently in their cart.

Manage Users
Admins are able to remove a users seller status, remove users, and authorize seller status for users.

Manage Listings
Sellers use this to manage all of their current listings, and an admin can use it to remove listings of their choosing.

Browse Listings
Users can use this to view listings and add listings to their cart.
